Appendix B. BlueScope Steel Warranty

DIRECT METAL ROOFING

ABN 34 064 057 585

[redacted]

7th March 2024

ATTENTION; [redacted]

REFERENCE; N1 & N2 Logos Moorebank

We attached herewith the pre-approved warranty for the “Expected Warranty” and information received from BlueScope Steel which relates to metal roofing material installed at above mentioned site.

You will see from the attachments from Bluescope that only the OWNER can obtain the actual warranty when the owner takes delivery of the building and Direct Metal Roofing are only able to supply an “Expected Warranty”

We are sorry for any inconvenience that this may cause but it is beyond our capabilities to have this changed.

Direct Metal Roofing (NSW) Pty Ltd acknowledges and confirms that all products were installed in accordance with Manufacturer’s published fixing recommendations current at the time of installation and as per BCA Clause F1.5, and Australian Standards - AS 1562.1 Metal roof sheeting & warrants the labour content, being the workmanship of installation of metal roofing materials including roof plumbing works associated with the contract works, all as carried out, by our tradesman, for a period of one (1) year from 1st March, 2024.

The workmanship warrant does not cover defects or damage caused by the following:-

- Mechanical, chemical, corrosion or other damage sustained after installation.
- Attack by chemical agents, fumes, liquids, or solids.
- Failure to maintain roof & associated roof plumbing areas including the non-removal of debris and/or failure to provide free drainage of water.
- Deterioration of installed products due to contact with green, treated, or wet timber.
- Storm and tempest, malicious damage, or other acts of God.
- Traffic damage caused by other trades due to the non-protection of roof plumbing works.
- Work installed by other trades or roofing companies.

Appendix 01 – External Finishes Schedule

Woolworths Distribution Centre – MoNDC, Moorebank NSW
Formerly, JN (Janus National)

For
Woolworths Group Ltd

At
Moorebank NSW

BELL Architecture
[redacted]

Consultant Project No.: BAS190087
Specification No: JN-SP-A-0-0001

PROJECT Number:		**BAS190087**		
PROJECT Name:		Woolworths Distribution Centre - MoNDC		
PROJECT Address:		Moorebank NSW		
SCHEDULE Name:		EXTERNAL FINISHES SCHEDULE		
REVISION:	**C6**	**DATE**	**24/03/2023**	**FOR CONSTRUCTION**

GENERAL NOTES:
- VERIFY LEADTIMES FOR ALL PRODUCTS AND ENSURE ALL ORDERS ARE PLACED ON TIME. ALTERNATIVES WILL NOT BE ACCEPTED DUE TO FAILING TO ORDER THE PRODUCT IN TIME TO MEET THE CONSTRUCTION PROGRAM. SOME PRODUCTS MAY HAVE LONG LEAD TIMES.
- ALL MATERIALS are to be coordinated with the site plan, floor plans, and external elevation drawings, should there be a discrepancy the building contractor is to allow for the more expensive option. Note that any discrepancies are to be raised with Superintendent prior to orders being placed and works beginning on site.
- Paint Names: All standard colour names are correct at the time of issue, the contractor is to confirm any name changes with the supplier when arranging samples for approval
- Refer to Appendix 06: Woolworths Colour and Type Face Schedule, for the Woolworths brand colour palette.

Dear [redacted]

RE: Services Construction Statement– LV Electrical Works at (MLPWP) Moorebank Logistics Park, Moorebank Ave Western Precinct

We, Northrop Engineers, being professional engineers, have undertaken an inspection of the low voltage electrical works on the 12/05/2023. The purpose of the inspection was to confirm the works were generally in accordance with:

Reference	Description	Revision
PIWW-NRP-EL-DWG-0000	Cover sheet and Legend	D
PIWW-NRP-EL-DWG-0001	Lighting, power and pits layout – Sheet 1	J

During the course of our inspections, we have reviewed the installation of the services and quality of workmanship of materials however our review was limited to our visual inspection. It is assumed that the contractor maintained the required levels of quality and workmanship throughout the project.

The following items were inspected:

- LV Switchboards
- Road lighting installation
- LV installation

Based on our limited visual inspections, Northrop found the works to be generally in accordance with the above listed documentation and design intent.

This statement shall not be construed as relieving any other party of their responsibilities.

We trust you find this information satisfactory. If you have any queries please feel free to contact me – [redacted]

Yours faithfully,

Yours faithfully

[redacted]

On behalf of Northrop Consulting Engineers Pty Ltd

B76	Operational lighting must: (a) comply with the latest version of AS 4282-1997 - Control of the obtrusive effects of outdoor lighting (Standards Australia, 1997); and (b) be designed to reduce light spill and be mounted, screened and directed in such a manner that it does not create a nuisance and minimises visual impacts to surrounding properties, the public road network, the Georges River riparian corridor and the Boot Land.	Please provide evidence / verification that the outdoor lighting installed for the estate generally, INTS, N2, MoRDC and MoNDC comply with this condition. Aspect has already been provided with evidence for N1	[redacted]	MITCO - Aurecon confirmed with MITCO on 20 March 2024 that the the lighting design for the INTS/ISRA zone is based on perimeter, pole mounted lighting directed internal to the site to provide maximum operable area. The luminaires selected have excellent cut-off control and assessment has been done to confirm compliance with AS 4282:2023 control of the obtrusive effects of outdoor lighting including areas: • surrounding properties • public road network • Georges River riparian corridor and the Boot Land

DESIGN CERTIFICATION – CC4

Re: MPW Stage 2 Q2 2026 UDDR Reporting - Follow up

From [redacted]@maersk.com>
Date Fri 8/14/2026 6:30 AM
To [redacted]
Cc [redacted]

Hi [redacted]

I hope this helps,

We have 4 types of waste stream onsite,

General wasted 3 bins - Collected 3 times per week
Cardboard 3 bins - Collect a minimum of 3 times a week extra call outs as required
Clear Plastic - Collected weekly
Recycled pallets - wood bin - collected on call

At the moment the site sends 16% of waste to land fill the balance is recycled across the 3 streams.

I only have 1st half numbers they show

Total waste 152.7T
Recycled 109.7T
Land fill 43T

Let me know if you need anything else

Best regards

Hi [redacted]

In response to your request for our waste management details for the MPW Stage 2 Q2 2026 UDDR reporting, please see our current setup below:

- Cardboard: 7 x 4.5 cubic bins, picked up daily.
- General Waste & Plastics: 4 x 3.5 cubic bins, picked up daily.
- Kitchen Waste: 1 x 1100-liter bin, picked up once every two weeks.

Please let me know if you need any further information.

Kind Regards,

Image removed by sender.

GREEN STAR CREDITS WITH ARC

To encourage environmentally responsible production, design and fabrication methods that result in efficient use of steel as a building material, the Green Building Council of Australia (GBCA) award one point in accordance with Design & As Built Credit 20 - Responsible Building Materials of the Green Star rating system;

20.1 95% of the buildings steel is sourced from a Responsible Steel Maker; and
B. *For Concrete framed buildings:* at least 60% (by mass) of all reinforcing bar and mesh is produced using energy reduced processing in its manufacture.

- ARC source all reinforcing steels from Liberty Onesteel. Liberty Onesteel is a Responsible Steel Maker with valid ISO 14001 certification and is also a member of the World Steel Association (WSA) Climate Action Plan (CAP).
- Liberty Onesteel steel makers use Polymer Injection Technology in their Electric Arc Furnaces (EAF) as an energy-reducing process (ERP) achieving approx. 70% by mass of reinforcing steels using this technology – A Life Cycle Assessment (LCA) report is available on request.

Use of ARC reinforcing steel may also contribute to claiming Green Star points in accordance with Design & As Built Credit 21 – Sustainable Products;

21C Environmental Product Declaration.

- ARC's Environmental Product Declaration (EDP) meets the requirements of
  - EN 15804 and ISO 14025 compliant
  - Verified by an independent third party
  - Cradle-to-gate scope

For further information on the Green Star rating system refer to the Green Building Council of Australia website www.gbca.org.au or contact your ARC account manager.

Yours Sincerely,

[redacted]
General Manager

8.0 LETTER OF COMPLIANCE

18 June 2024

This letter of compliance hereby confirms our construction of the landscaped areas associated with Moorebank Regional Distribution Centre is in accordance with plans provided by Ground Ink Landscape Architects.

Benefits of using this EPD

- Provides an independently verified representation of the environmental impact of the Liberty Primary Steel product going into your project.
- Complies with the requirements of a valid EPD that is recognised in the Green Star Design & As Built v1.3 and Innovation Challenge of Green Star legacy tools by the Green Building Council of Australia (GBCA).
- Complies with the requirements of IS® rating tool by the Infrastructure Sustainability Council (ISC).

Green Building Council Australia
Member 2020–2021

Green Star® Points

This EPD complies with requirements under the Green Building Council of Australia's rating tool, Green Star – Design & As Built v1.3.

Green Star points for EPDs can be claimed under the Sustainable Products credit when the following criteria are met:

- ✓ EN 15804 and ISO 14025 compliant
- ✓ Verified by an independent third party
- ✓ Cradle-to-gate scope.

This EPD meets these requirements.

Infrastructure Sustainability Council

This EPD complies with requirements under the Infrastructure Sustainability Council's IS® rating scheme:

- ✓ Compliant with ISO 14025
- ✓ Compliant with EN15804
- ✓ Verified by a third party.

This EPD may help your project achieve ISv2.0 Rso-7 or ISv1.2 Mat-2 credits under the IS® rating scheme.

Appendix I. Energy Efficiency

Outlook

[redacted]

Base build of warehouses has the lighting systems which you should be able to make comment on, these are on the installed sensors and/or timers. The lighting systems are still LED's. We have not essentially connected "Plant" that would be deemed energy efficient so would sit outsite the requirement to report on them. Warehouse 6 is still in the setup phase.

Thermal comfort within the offices are part of base build which you should be able to comment o and these are still on timer for business hours use.

With respect to Forklifts. There are no real energy efficiencies known to me by using electric over other fossil fuels other than where the energy might be sourced at the particular time of day. However, for your purposes you may wish to indicate that:-

Warehouse 5 contains 26 Forklift/Highreach and pallet runners which are alternate fuel sourced vehicles being battery electric. The Tennant is also runs gas powered MHE which will in due course and availability of product and appropriate approvals be transitioned to electric.

Warehouse 6 contains 10 Forklift/Highreach and pallet runners which are alternate fuel sourced vehicles being battery electric. There is also a contingent of gas powered MHE which like warehouse 5 will follow the same procurement process for alternate powered equipment in the future.

Not sure of the format that you are reporting this in so makes it hard to tick a box. Maybe for next year seeing that you have the dates you can prepare a format of sorts for the tenancies.

Cheers

Subject: Sydney Tools - Compliance Reporting - Condition B49 - Use Of Energy Efficient Plant And Equipment

Good morning,

I hope you're well.

As part of our regular compliance reporting, we need to provide details about energy-efficient equipment to our reporting representative now that Warehouse N2 is operational. Please refer to condition B49 below:

Condition B49 (b) use of energy efficient plant and equipment;	We require evidence / advice from the operatir equipment within their warehouse.

Could you please share a brief statement or email outlining the energy-efficient moving plant (e.g., forklifts and machinery) that Sydney Tool's has installed or is operating at N2? If there's a register or list of this equipment available, it would be great if you could attach that as well.

We'd appreciate receiving this by COB Friday, 18 July 2025.

Thanks in advance for your help.

Regards,

[redacted]

Cc [redacted]

Hey [redacted] hope you are well!

Please note Maersk at N1 are using all electric MHE's.
Counterbalance, High Reach and Sweepers are all electric.

No MHE on site is gas or diesel.

Thanks,

[redacted]
